DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Herbert Dubno on 9-13-05.

The application has been amended as follows:

In claim 15, line 12, replace "base plate" with -base plate;--; and
line 13, replace "seal and having" with --seal having--.

The changes have been made to correct minor typographical error.

Allowable Subject Matter

2. Claims 15-17 are allowed.
3. The following is an examiner's statement of reasons for allowance: It is agreed that the prior art of record fail to teach or suggest alone or in combination, the limitations: "an injection-molded seal between the plate-shaped portion and one side of the wall and sealing the base plate relative to an interior of the body, the seal being formed with an outer periphery terminating at an outer edge of the base plate; and the seal having: an inner seal bead hugging the stud and compressed between the plate-shaped portion and the wall adjacent the hole, an outer seal bead along the outer perimeter of the seal and interposed between an outer edge of the base plate and the wall, and at least one seal portion between the beads projecting through an opening in the

plate-shaped portion" as claimed in claim 15. It is for these reasons in combination with all the other limitations in the independent claim 15, that claims 15-17 are allowable over prior art of record.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
